## Executive Summary

Basys Analytics has developed a professional analytics application marketplace backed by over 30 years of international IT consulting expertise. The BSYA Token is the native utility token of this ecosystem — a BEP-20 token on BNB Smart Chain that enables access to premium applications, rewards loyal holders through staking, drives deflationary tokenomics through automatic burn, and gives the community governance power over the platform's future.

Basys Analytics hat einen professionellen Analytics-App-Marketplace entwickelt, gestützt auf über 30 Jahre internationale IT-Beratungserfahrung. Der BSYA Token ist der native Utility-Token dieses Ökosystems — ein BEP-20 Token auf der BNB Smart Chain, der Zugang zu Premium-Applikationen ermöglicht, treue Holder durch Staking belohnt, durch automatischen Burn deflationäre Tokenomics antreibt und der Community Governance-Macht über die Zukunft der Plattform gibt.

<b>1B</b> Total Supply / Gesamtangebot	<b>20%</b> Max APY / Max. Staking APY	<b>5%</b> Burn Rate / Auto-Burn Rate	<b>\$0.0015</b> Sale Price / Verkaufspreis
--	---	---	---

**Core Proposition / Kernprinzip:** BSYA creates a self-reinforcing economic loop — Marketplace growth drives token demand, staking rewards reduce circulating supply, and automatic burn creates permanent deflation. Every platform transaction makes BSYA more scarce. | BSYA schafft einen sich selbst verstärkenden Wirtschaftskreislauf — Marketplace-Wachstum treibt die Token-Nachfrage, Staking-Rewards reduzieren das umlaufende Angebot, und automatischer Burn schafft permanente Deflation.

## Problem & Vision

### The Problem / Das Problem

Businesses and researchers face a fragmented analytics landscape today. Enterprise-grade tools are expensive and locked behind opaque subscription models. Open-source alternatives require significant technical expertise. There is no unified marketplace where vetted, production-ready analytics applications can be discovered, trialled, and deployed with transparent pricing and community governance.

Unternehmen und Forscher stehen vor einer fragmentierten Analytics-Landschaft. Enterprise-Tools sind teuer und hinter undurchsichtigen Abonnementmodellen verborgen. Open-Source-Alternativen erfordern erhebliches technisches Know-how. Es gibt keinen einheitlichen Marketplace, auf dem geprüfte, produktionsreife Analytics-Applikationen mit transparenter Preisgestaltung und Community-Governance gefunden und eingesetzt werden.

## The Vision / Die Vision

Basys Analytics builds the infrastructure layer for professional data analytics — a curated marketplace of applications across business intelligence, security analytics, AI automation, blockchain analytics, and research tools, governed and accessed through the BSYA Token. The vision: a decentralised, community-owned analytics ecosystem where value flows back to the users who create it. | Basys Analytics baut die Infrastrukturschicht für professionelle Datenanalyse — einen kuratierten Marketplace mit Applikationen aus den Bereichen Business Intelligence, Sicherheitsanalyse, KI-Automatisierung und Forschungstools.

### 03 - The Basys Analytics Marketplace / Der Basys Analytics Marketplace

## The Basys Analytics Marketplace

The Marketplace is the operational core of the BSYA ecosystem. It hosts curated analytics applications across multiple professional categories, with access gated by BSYA token balance (tier system) or pay-per-use payments in BSYA. All listed applications are reviewed for quality, security, and professional utility before listing.

Category / Kategorie	Examples EN / Beispiele EN	Examples DE / Beispiele DE
Business Intelligence	KPI dashboards, reporting, data viz	KPI-Dashboards, Reporting, Visualisierung
Security Analytics	Threat detection, NIS2, audit tools	Bedrohungserkennung, NIS2, Audit-Tools
AI & Automation	ML pipelines, process automation	ML-Pipelines, Prozessautomatisierung
Research Tools	Statistical analysis, academic tools	Statistische Analyse, akademische Tools
Blockchain Analytics	On-chain data, wallet analysis	On-Chain-Daten, Wallet-Analyse
Education & Research	Learning tools, research platforms	Lerntools, Forschungsplattformen

### Developer Ecosystem / Entwickler-Ökosystem

Third-party developers list applications by staking BSYA (Developer Staking). This creates a quality filter — developers with skin in the game are incentivised to maintain high standards. Revenue sharing with developers is denominated in BSYA, creating organic buy pressure from the supply side. | Drittentwickler listen Applikationen durch BSYA-Staking. Dies schafft einen Qualitätsfilter. Revenue Sharing ist in BSYA denominated, was organischen Kaufdruck erzeugt.

### 04 - Token Utility — Six Demand Vectors / Token-Utility — Sechs Nachfragevektoren

## Token Utility — Six Demand Vectors

BSYA has six distinct utility functions, each creating independent and compounding demand. Unlike speculative tokens, every BSYA use case is tied to real platform activity.

#	Function EN / Funktion EN	Function DE / Funktion DE	Mechanism / Mechanismus
1	Access Gating	Zugangskontrolle	Hold BSYA to unlock premium apps by tier
2	Pay-per-Use Discount	Pay-per-Use Rabatt	20-30% discount when paying with BSYA vs. fiat
3	Deflationary Burn	Deflationärer Burn	5% of every marketplace transaction permanently burned

4	Staking Rewards	Staking-Rewards	Up to 20% APY from real marketplace revenue
5	Governance Voting	Governance-Voting	On-chain voting on platform decisions via Snapshot
6	Developer Staking	Developer Staking	Developers stake to list apps — quality signal

**Demand Flywheel / Nachfrage-Schwungrad:** More users → more marketplace transactions → more burn → less supply → higher value → more users. Each utility function reinforces the others, creating compounding demand without relying on speculative momentum.

## 05 - Tokenomics & Distribution / Tokenomics & Verteilung

# Tokenomics & Distribution

Allocation EN / Zuteilung EN	Allocation DE / Zuteilung DE	Amount / Betrag	% / %	Vesting / Vesting
Community Sale	Community Sale	300,000,000 BSYA	30%	Immediate at TGE / Sofort
Ecosystem & Marketplace	Ökosystem & Marketplace	250,000,000 BSYA	25%	3m cliff, 24m linear
Staking Rewards Pool	Staking-Rewards-Pool	200,000,000 BSYA	20%	36m — released as rewards
Team (2yr vesting)	Team (2 Jahre Vesting)	150,000,000 BSYA	15%	12m cliff, 24m linear
Treasury Reserve	Treasury-Reserve	100,000,000 BSYA	10%	6m cliff, governance-controlled
TOTAL	GESAMT	1,000,000,000 BSYA	100%	

**Anti-dump protection / Anti-Dump-Schutz:** Team tokens are locked for 12 months (cliff) and then released linearly over 24 months. No team member can dump tokens. Treasury is governance-controlled — no unilateral spending. | Team-Token sind 12 Monate gesperrt (Cliff) und werden dann linear über 24 Monate freigegeben. Treasury wird durch Governance kontrolliert.

## 06 - Deflationary Burn Mechanism / Deflationärer Burn-Mechanismus

# Deflationary Burn Mechanism

On every Marketplace transaction, 5% of the BSYA payment amount is automatically routed to the burn address (0x000...dead). This is enforced at smart contract level and cannot be overridden by any party, including Basys Analytics. The burn is permanent, irreversible, and verifiable on BscScan in real time.

Bei jeder Marketplace-Transaktion werden automatisch 5% des BSYA-Zahlungsbetrags an die Burn-Adresse (0x000...dead) weitergeleitet. Dies ist auf Smart-Contract-Ebene durchgesetzt und kann von keiner Partei, einschließlich Basys Analytics, überschrieben werden.

Scenario EN / Szenario EN	Scenario DE / Szenario DE	Transactions/day / Transakt./Tag	Daily Burn / Täglicher Burn	Annual Burn / Jährlicher Burn
Conservative	Konservativ	500	~12,500 BSYA	~4.5M BSYA (0.45%)
Moderate	Moderat	5,000	~125,000 BSYA	~45M BSYA (4.5%)
Growth	Wachstum	50,000	~1.25M BSYA	~456M BSYA (45.6%)

## Staking & DeFi Rewards

BSYA staking allows token holders to earn rewards proportional to their staked amount and duration. Rewards are sourced from the dedicated Staking Pool (200M BSYA) and a portion of ongoing Marketplace revenue — not from inflationary token minting. This means staking rewards represent real economic value generated by the platform.

BSYA-Staking ermöglicht Token-Holdern, Rewards proportional zu ihrem gestakten Betrag und der Dauer zu verdienen. Rewards stammen aus dem Staking-Pool (200M BSYA) und einem Teil der laufenden Marketplace-Einnahmen — nicht aus inflationärem Token-Minting.

Tier / Tier	Min. Stake / Min. Stake	APY / APY	Benefits EN / Vorteile EN	Benefits DE / Vorteile DE
Free	0 BSYA	—	3 free apps, 50 API calls/day	3 kostenlose Apps, 50 API-Calls/Tag
Starter	250 BSYA	8%	10 apps, 20% discount, governance	10 Apps, 20% Rabatt, Governance
Pro	1,000 BSYA	14%	All apps (24+), 30% discount, 2x voting	Alle Apps, 30% Rabatt, 2x Stimmkraft
Partner	5,000 BSYA	20%	All apps + API + white-label, 4x voting	Alle Apps + API + White-Label, 4x Stimmkraft

### Staking Mechanics / Staking-Mechanik

- Staked tokens count fully towards tier calculation / Gestakte Token zählen vollständig für die Tier-Berechnung
- No minimum staking period — fully flexible / Kein Mindest-Staking-Zeitraum — vollständig flexibel
- Early exit: 10% penalty on accrued rewards / Frühzeitiger Ausstieg: 10% Penalty auf aufgelaufene Rewards
- Rewards claimable daily or auto-compoundable / Rewards täglich claimbar oder automatisch reinvestierbar
- Staking contract: OpenZeppelin, audited pre-deployment / Staking-Contract: OpenZeppelin, vor Deployment auditiert
- APY sourced from real Marketplace revenue + pre-funded pool / APY aus echten Marketplace-Umsätzen + vorfinanziertem Pool

## Access Tiers & Marketplace Benefits

The tier system creates a direct, transparent link between BSYA holding and platform access. There are no hidden fees, subscriptions, or lock-ins beyond token holding. Your tier is calculated in real time from your wallet balance. | Das Tier-System schafft eine direkte, transparente Verbindung zwischen BSYA-Halten und Plattformzugang. Keine versteckten Gebühren oder Abonnements. Ihr Tier wird in Echtzeit aus Ihrem Wallet-Saldo berechnet.

Feature / Merkmal	Free / 0 BSYA	Starter / 250+ BSYA	Pro / 1,000+ BSYA	Partner / 5,000+ BSYA
Apps available / Verfügbar	3	10	24+	All + API
API calls/day / API-Calls	50	500	Unlimited	Unlimited
Pay-per-use discount / Rabatt	—	20%	30%	30%
Governance voting / Voting	—	1x	2x	4x
Staking APY	—	8%	14%	20%
White-label / White-Label	—	—	—	✓
Priority support / Support	—	—	—	✓

## Governance & DAO

BSYA is a governance token: holders vote on all major platform decisions through on-chain proposals via Snapshot. Voting power is proportional to BSYA balance, with multipliers for higher tiers. The goal is full community governance by Q4 2026.

BSYA ist ein Governance-Token: Holder stimmen über alle wichtigen Plattformentscheidungen durch On-Chain-Proposals via Snapshot ab. Stimmkraft ist proportional zum BSYA-Saldo, mit Multiplikatoren für höhere Tiers. Ziel ist vollständige Community-Governance bis Q4 2026.

### Governance Scope / Governance-Umfang:

- New app listings and removals / Neue App-Listings und Entfernungen
- Burn rate adjustments (currently 5%) / Burn-Rate-Anpassungen (aktuell 5%)
- Staking APY parameters per tier / Staking-APY-Parameter pro Tier
- Developer staking requirements / Entwickler-Staking-Anforderungen
- Treasury allocation decisions / Treasury-Allokationsentscheidungen
- Protocol upgrades and new feature prioritisation / Protokoll-Upgrades und Feature-Priorisierung
- Emergency measures and circuit breakers / Notfallmaßnahmen und Sicherheitsmechanismen

## Technology & Smart Contract Architecture

BSYA is implemented as a standard BEP-20 token on BNB Smart Chain with additional modules for staking, burn, and governance. All contracts are built on OpenZeppelin's battle-tested library foundations. The architecture prioritises security, upgradability via proxy patterns, and gas efficiency.

Contract / Contract	Function EN / Funktion EN	Function DE / Funktion DE	Status / Status
BSYA Token	BEP-20 with burn hook	BEP-20 mit Burn-Hook	✓ Deployed & Audited
Staking Contract	Stake, reward distribution	Staking, Reward-Verteilung	Q3 2026
Governance	Snapshot integration	Snapshot-Integration	Q2 2026
Marketplace Bridge	Payment processing	Zahlungsabwicklung	Q2 2026
Cross-Chain Bridge	Polygon / Ethereum	Polygon / Ethereum	Q4 2026

### Why BNB Smart Chain? / Warum BNB Smart Chain?

- Low fees: Transactions cost <\$0.10 vs. \$5-50 on Ethereum mainnet / Niedrige Gebühren
- Speed: 3-second block time enables real-time marketplace interactions / 3-Sekunden-Blockzeit
- Ecosystem: PancakeSwap, Trust Wallet, MetaMask natively support BEP-20
- Compatibility: MetaMask + WalletConnect work out of the box / Volle Kompatibilität
- Future: Cross-chain bridge to Ethereum and Polygon planned Q4 2026 / Cross-Chain-Bridge geplant

**Contract Address (BNB Smart Chain / BEP-20):**

0xDe261d47466fc4bD3b75718eC6F287Aa4dd2E025

Verify: [bscscan.com/token/0xDe261d47466fc4bD3b75718eC6F287Aa4dd2E025](https://bscscan.com/token/0xDe261d47466fc4bD3b75718eC6F287Aa4dd2E025)

## Security & Audit

The BSYA Token smart contract was fully audited by CertiK prior to deployment. CertiK is one of the leading blockchain security firms, having audited hundreds of major DeFi protocols. The audit covered: integer overflow/underflow vulnerabilities, reentrancy attacks, access control mechanisms, burn mechanism integrity, economic model soundness, and code quality.

Der BSYA Token Smart Contract wurde vor dem Deployment vollständig von CertiK auditert. CertiK ist eines der führenden Blockchain-Sicherheitsunternehmen. Das Audit umfasste: Integer Overflow/Underflow-Schwachstellen, Reentrancy-Angriffe, Zugriffskontrolle, Burn-Mechanismus-Integrität, wirtschaftliche Modellsoundness und Code-Qualität.

- CertiK full audit — report publicly available on CertiK website and GitHub

- OpenZeppelin contracts base — industry standard, battle-tested in \$10B+ TVL protocols
- Multi-sig treasury — requires multiple signatures for any treasury operation
- Timelock on upgrades — 48-hour delay on any contract changes
- Staking contract: separate audit before Q3 2026 deployment
- Bug bounty program planned post-launch

## 12 · Token Sale & Rounds / Token Sale & Runden

# Token Sale & Rounds

Round EN / Runde EN	Round DE / Runde DE	Price / Preis	Supply / Angebot	Status / Status
Seed Round	Seed-Runde	\$0.0005	100M BSYA	✓ Completed
Presale	Presale	\$0.0010	200M BSYA	✓ Completed
Public Sale ●	Public Sale ●	\$0.0015	300M BSYA	● LIVE
Exchange Listing	Exchange-Listing	Market price	PancakeSwap + CEX	Q3 2026

**Early Buyer Bonus / Frühkäufer-Bonus:** Early buyers receive +15% bonus BSYA and 90 days Pro-Tier access free. After the sale period, price rises from \$0.0015 to \$0.0020 at exchange listing. Accepted: BNB, USDT, BUSD, credit card via MoonPay. | Frühkäufer erhalten +15% Bonus-BSYA und 90 Tage Pro-Tier gratis. Nach dem Sale steigt der Preis auf \$0,0020. Akzeptiert: BNB, USDT, BUSD, Kreditkarte via MoonPay.

## 13 · Use of Proceeds / Verwendung der Einnahmen

# Use of Proceeds

Category EN / Kategorie EN	Category DE / Kategorie DE	% / %	Purpose EN / Zweck EN	Purpose DE / Zweck DE
Product Dev.	Produktentwickl.	40%	Marketplace expansion, staking contract, mobile app	Marketplace-Ausbau, Staking-Contract, Mobile App
Liquidity	Liquidität	25%	DEX/CEX liquidity pools, market making	DEX/CEX-Liquiditätspools, Market Making
Marketing	Marketing	20%	Growth campaigns, partnerships, ambassador	Wachstumskampagnen, Partnerschaften
Operations	Betrieb	10%	Legal, compliance, infrastructure, team	Legal, Compliance, Infrastruktur
Reserve	Reserve	5%	Emergency fund, future audits	Notfallfonds, zukünftige Audits

## Education & Research for Children

One of the most distinctive pillars of the Basys Analytics mission is our commitment to making data literacy, technology education, and analytical thinking accessible to children and young students. The BSYA ecosystem allocates specific resources and dedicated Marketplace apps to this mission, partly funded through the Education Fund component of the Treasury.

Einer der markantesten Pfeiler der Basys Analytics Mission ist unser Bekenntnis, Datenkompetenz, Technologiebildung und analytisches Denken für Kinder und Jugendliche zugänglich zu machen. Das BSYA-Ökosystem reserviert spezifische Ressourcen und dedizierte Marketplace-Apps für diese Mission, teilweise finanziert durch den Bildungsfonds im Treasury.

### Education Marketplace Apps / Bildungs-Apps:

App Name / App-Name	Description / Beschreibung	Access / Zugang
DataKids Explorer	Interactive data visualisation for ages 8-14 — drag-and-drop charts, statistics games	Free
CodeLab Junior	Introduction to programming concepts through visual blocks and puzzles	Free
Research Helper	Guided research methodology for school projects and university students	Free
Math Analytics	Interactive statistics and probability for secondary school students	Starter
Science DataLab	Real dataset exploration for biology, chemistry, physics projects	Starter
AI for Kids	Age-appropriate introduction to machine learning concepts and ethics	Free

### The Education Fund / Der Bildungsfonds

2% of all Marketplace transaction fees are allocated to the Basys Analytics Education Fund. This fund finances: free access to educational apps for schools and NGOs, scholarship programmes for students in STEM fields, partnerships with educational institutions for data science curricula, and research grants for student projects using Basys Analytics tools.

2% aller Marketplace-Transaktionsgebühren fließen in den Basys Analytics Bildungsfonds. Dieser Fonds finanziert: kostenlosen Zugang zu Bildungs-Apps für Schulen und NGOs, Stipendienprogramme für MINT-Studierende, Partnerschaften mit Bildungseinrichtungen für Data-Science-Curricula und Forschungsstipendien für studentische Projekte.

**Mission Statement / Leitbild:** "Data literacy is the literacy of the 21st century. Every child deserves access to the tools and knowledge to understand, question, and create with data — regardless of their background or resources." — Basys Analytics

"Datenkompetenz ist die Lese- und Schreibfähigkeit des 21. Jahrhunderts. Jedes Kind verdient Zugang zu den Werkzeugen und dem Wissen, um Daten zu verstehen, zu hinterfragen und damit zu schaffen — unabhängig von Herkunft oder Ressourcen." — Basys Analytics

## Roadmap 2026

<b>Q1 2026 ✓ Completed ✓ Abgeschlossen</b>	<ul style="list-style-type: none"><li>✓ BSYA Smart Contract deployed &amp; audited by CertiK</li><li>✓ Token Sale website live (index + token page)</li><li>✓ Seed Round completed (\$0.0005)</li><li>✓ PancakeSwap Liquidity Pool created</li><li>✓ Whitepaper v1.0 published</li></ul>
<b>Q2 2026 ■ In Progress ■ In Arbeit</b>	<ul style="list-style-type: none"><li>→ WalletConnect integration in dashboard</li><li>→ Tier system live (balance → app access)</li><li>→ Public Token Sale (\$0.0015) — currently live</li><li>→ Pay-per-use payment flow (BEP-20)</li><li>→ Education Fund allocation begins</li></ul>
<b>Q3 2026 · Planned · Geplant</b>	<ul style="list-style-type: none"><li>· Staking Smart Contract (OpenZeppelin, audited)</li><li>· Staking dashboard in app with auto-compound</li><li>· Automatic 5% burn on every marketplace transaction</li><li>· CEX listing — Tier 2 Exchange</li><li>· First Education Fund grants distributed</li></ul>
<b>Q4 2026 ■ Vision ■ Vision</b>	<ul style="list-style-type: none"><li>· Governance DAO via Snapshot — fully live</li><li>· Developer staking for app listing (quality gate)</li><li>· Cross-chain bridge to Polygon and Ethereum</li><li>· 10,000 active BSYA holders target</li><li>· Education Marketplace — 10+ free apps for children</li></ul>

## Team & Background

Basys Analytics was founded by IT professionals with over 30 years of combined international consulting experience across Europe, the Americas, and Asia. The founding team has deep expertise in enterprise architecture, cybersecurity (NIS2, ISO 27001, BSI), cloud infrastructure (AWS, Azure, GCP), financial technology, and blockchain systems.

The team is deliberately non-anonymous — a conscious decision to build trust and accountability in a space where anonymity is often used to avoid responsibility. We stand behind our product with our names and reputations. | Das Team ist bewusst nicht anonym — eine bewusste Entscheidung um Vertrauen aufzubauen.

## Risk Factors

### Market Risk / Marktrisiko

Cryptocurrency markets are highly volatile. The value of BSYA may decrease significantly or reach zero. Past performance is not indicative of future results. | Kryptowährungsmärkte sind hochvolatil.

### Regulatory Risk / Regulierungsrisiko

Changes in regulations in your jurisdiction may affect the legality, value, or usability of BSYA. We do not offer BSYA to US persons or in prohibited jurisdictions. | Regulatorische Änderungen können die Legalität oder den Wert von BSYA beeinflussen.

### Smart Contract Risk / Smart-Contract-Risiko

Despite CertiK audit, smart contract vulnerabilities cannot be entirely excluded. Blockchain transactions are irreversible — lost tokens cannot be recovered. | Trotz CertiK-Auditierung können Smart-Contract-Schwachstellen nicht vollständig ausgeschlossen werden.

### Liquidity Risk / Liquiditätsrisiko

During early phases, BSYA liquidity on exchanges may be limited. Large sell orders may impact market price significantly. | In frühen Phasen kann die Liquidität auf Exchanges begrenzt sein.

### Platform Risk / Plattformrisiko

The Marketplace depends on developer adoption and user growth. If app quality or quantity fails to meet expectations, token utility may be limited. | Der Marketplace ist auf Entwickleradoption und Nutzerwachstum angewiesen.

### Technology Risk / Technologierisiko

BNB Smart Chain, PancakeSwap, and other infrastructure components carry their own technical risks. Disruption to these systems may affect BSYA functionality. | BNB Smart Chain und andere Infrastrukturkomponenten tragen eigene technische Risiken.
